Class description (#1)

In this one-day workshop students learn the fundamentals of the art of tapestry weaving and gain a solid understanding of the process of warping up and weaving with multiple techniques like shape building, colour blending and textural techniques. We also talk about how to choose yarn for your projects, how to finish your tapestry as well as how to troubleshoot tapestry-specific issues.

Students will leave with a good start on a project in colours of their choosing from a range of naturally dyed yarns made by Janna.
